

ALCHEMY® fine china

# balance

All types of contemporary fusion and pacific-rim style cuisine will be complemented and enhanced by Balance; a range of 13 key items in simple modern shapes, with the versatility to cross other food groups. The whiteness of Alchemy fine china lets the food be the star.

Sauces can be poured or drizzled in the deep coupe bowls and plates, which are rimless to offer great flexibility in food presentation. Feature pieces such as the handled footed soup bowl and rectangular tray make a real statement on the table.

A selection of footed bowls are included in different sizes for rice and all types of side orders. All items are stackable, with either a glazed or polished foot that helps protect surfaces against scratching and metal marking.
