# batik

The ultimate in refinement and luxury, Batik is a very stylish pattern in a design and colours that are closely linked to interior décor trends in leading hotels and restaurants. An enchanting hand painted style leaf motif in rich red and

burnt orange is poised delicately on the rim of the plate, contrasting with the rich red full border of the service plate - a beguilingly simple design concept that allows the food to be the

main focus. A comprehensive range of 48 items are offered, including Energy and Balance shapes. The pattern also works well when mixed with Alchemy White.
