

# Deluxe

New to 2006 are a range of deluxe products, made using the highest quality of melamine. These products are thicker than our standard ranges, making the appearance more ceramic like than ever, whilst still maintaining the properties that melamine can offer. They are light weight, chip resistant and virtually unbreakable.

Our Dover range has been exclusively designed to work in harmony together. Its sleek and classic lines work well on their own or in a counter. Both items are available in two sizes.

The tray is ideal for serving canapés or desserts on or it can double up as an insert for the bowl, this means that you don't have to compromise on the overall appearance but can display less amounts of food.
