

Fleur Crocks

A new addition to our gastronorm range is our fleur crocks. We have created a unique and fashionable design which will make your display really stand out.

They are made out of melamine which means they're dishwasher safe and extremely durable. They are available in a variety of new and exciting colours, which you can mix and match with our existing products to create an eye catching display.

Watch this space – We are currently developing inserts and lids for this range.
