

Round

Our round melamine plates are perfect for presenting cakes or quiches, use these with our domed covers to make sure food is kept fresh and looking its best.

For a more elegant touch to your display why not use our Oslo plates. They are made out of a higher grade melamine which gives a glossier finish and makes the products really stand out.

Our round plates work perfectly with our pedestals and ham stands and give that extra height, you will find more information on this in our display aid section.
