

# Square

Many of our square bowls and trays have the look and feel of ceramic but the durability that only melamine can offer.

These products are extremely versatile, the T3113 can be used with our square multi section tray T3110 offering you the ability to display 4 dishes at once.

We have also introduced a new range of square bowls and trays called the Dover range. The products can be used together to create inserts for the bowls or used on their own. Turn to the ranges section to find out more about the uses of the Dover bowl and tray.
